RESPONSES OF THE UNITED STATES POSTAL SERVICE
TO CHAIRMAN'S INFORMATION REQUEST NO. 1

11. In response to CHIRs in prior ACR dockets, the Postal Service submitted the RPW Extract File. See Excel file ChIR1.Q14.nonpublic.XLS in Docket No. ACR2012. This file consists of the following three worksheet tabs containing comprehensive mail category revenue, pieces, and weight data for FY 2012: "Summary Category RPW Data", "Rate Category RPW Data", and "RPW Report". Please provide an Excel file that includes the aforementioned worksheet tabs and the same comprehensive mail category data from the RPW, updated for FY 2013.

RESPONSE:

The requested RPW Extract for FY13 file is submitted under seal as USPS-FY13-NP31.

Please note that this version of the Extract File reflects updates (relative to Extract File materials used earlier) in the following categories:

- a) updates to the Parcel Select PC Postage non-presort revenue, volume and weight,
- b) updates to USPS Tracking/DelCon revenues and transaction counts,
- c) updates to Q1 FY13 Library Mail revenue, volume and weight,
- d) updates to outbound direct sacks M-bags (Air M-bags) revenue, volume and weight,
- e) moving Package Intercept MD Ancillary Service to Competitive Ancillary Service, and
- f) re-mapping Std Mail simple sample parcels to High Density and Saturation Parcels.

To allow the data in the report to continue to tie to book revenues, incorporation of these updates causes minor additional effects in other categories.
